Office of the President
of the District Funds Boards
Shimoga District.

Dated 20th September 1901.

From

K. P. Puttanniah Chetty Esquire
President District Funds Board
Shimoga District

To

N. V. Narsunday pa Esquire
Secretary to the Government of
Mysore, General and Revenue Depts.

Sir,

I have the honour to forward herewith a revised estimate for Rs 670-0-0 for sinking a new well at Hadagi in the Shimoga Taluk. This work was sanctioned by me (last year) for Rs 495-0-0 and given out for contract. After the well was sunk to a depth of about 17 ft hard rock was met with and the contractors stopped work saying that we would not execute any more work unless a revised estimate was sanctioned. The Amildars who inspected the well are also of opinion that the revised estimate

should _____ be sanctioned.

The village consists of about 100 houses and a population of about 500 souls. The ryots have contributed a sum of Rs 200-0-0 towards the construction of the well. As there is no good drinking water available in or near the village, I request that sanction of Government may be kindly accorded to the revised estimate, duplicate copies of which are hereto enclosed. The cost may be met from out of Rs 4500-0-0 provided under B. Public Works by the Revenue Department I "Original" in the current year's District Fund Budget.

I have the honour to be,

Sir,

Your most obedient Servant

K P Thammaiah

President

District Fund Board

Shimoga District.

proceed with the work as a layer of hard rock was met with. The Executive Engineer directed the Sub Assistant Engineer No I Sub-Division to inspect the work and to report on it. The Sub. Assistant Engineer, a copy of whose report No 32 of 21st January last to the Executive Engineer is herein enclosed for information, reports that the rock met with is of granite formation and is very hard to be easily dealt with and that a rate of Rs 10/ per cubic yard from 18 to 30 ft, of Rs 12/ from 30 to 40 ft, and of Rs 15 from 40 to 50 ft may be paid, and that even this high rate does not leave any margin of profit to the contractor. The villagers have contributed a sum of Rs 200/ towards the construction of this well with the hope of obtaining a good supply of drinking water for which they have been experiencing a great deal of difficulty. The work has been

been in progress for the last two years and I have accordingly decided to push on with the work in anticipation of Government sanction.

I therefore request that sanction of Government may kindly be accorded to the present revised estimate, duplicate copies of which are herewith forwarded.

The excess of Rs 625/ may be met from the sum of Rs 2500/, provided under "b. Limit charges" "Conservancy and Sanitary Charges" in the current years District Fund Budget.

I have the honor to be,
Sir,
Your most obedient servant,

M. Hacquelo
